

Independent Writings

The following publications are all Copyright © Steven R. Gould, 2001-2007, and have been published by myself, independent of any third party. OpenForecast User's Guide

- An introduction to development using the open-source forecasting library, OpenForecast. Variance Reduction Techniques applied to large scale simulation models
- A case study on how to improve the accuracy of your simulation models. A variety of different techniques are discussed and compared. Installing Linux on a Gateway 400SD4 notebook
- Some notes on my experience installing Slackware Linux on a Gateway 400SD4 notebook. Quick Reference Cards

This page was inspired in part by Andrew Ford's collection of Quick Reference Cards at refcards.com, several of which I have found very useful. Along these same lines, I have developed quick reference cards for PHP and for DOC++. I am considering doing several others too, but am making no promises yet! PHP 4 Quick Reference Card

- Available on US letter paper in PDF or PostScript format. The TeX source is also available. DOC++ Quick Reference Card

- Available on US letter paper in PDF or PostScript format. The TeX source is also available.

I hope to write some more, on different topics, soon. For a bigger collection of Quick Reference Cards (by a variety of authors) refer to Andrew Ford's RefCards.com.
