

How can I uninstall CleanUp!

What? Why would you want to do that? :-) No, seriously now, it's pretty straightforward:

- Click on Start, Programs, CleanUp!, Uninstall CleanUp!

[Alternatively, you can use the Add/Remove Programs icon in the Control Panel and select to uninstall CleanUp! from there.]

- You will be asked to confirm the removal. Click Yes to confirm (or No to Cancel).

That's it. Simple, eh?
