

## System Requirements

You need to be running one of the following Operating Systems:

- Windows XP (any edition)
  
- Windows 2000 (Professional, Server or Advanced Server)
  
- Windows NT 4.0 (Workstation or Server)
  
- Windows ME
  
- Windows 98
  
- Windows 95

You'll also need about 2MB of free hard disk space to perform the installation, though once installed CleanUp! occupies less than 0.6 MB (600KB). It can even be installed onto, and run from, a 3½" floppy disk.

That's about all there is to it. There are no other special hardware or software requirements. CleanUp! was designed with simplicity and ease-of-use in mind.
