

Top 20 disk space recoveries

The following are some of the best results using CleanUp! to free disk space that users have reported. If you recovered more than 15 GB then let me know (see Take the CleanUp! Challenge for details).

One user recently reported freeing up 12.6 GigaBytes of disk space on a 16.6 GB hard drive. Unfortunately, he wasn't able to send me the log file, so does not get included in this top 10 list.

You might also be interested in looking at the top 20 file recoveries to see the number of files CleanUp! was able to delete from some users machines.

Files Deleted	Date	User	Disk Space Recovered
84.04 GB	Apr. 2, 2008	Eleora	4.0
17,637	Apr. 13, 2011	CM / AHC	4.5.2
45.26 GB	225,578 Apr. 29, 2005	DG	4.0 34.36 GB
