

Can I help with CleanUp! development and/or support?

Yes! CleanUp! is, and always has been, freeware. I receive absolutely no compensation for writing it. However, I do have costs associated with making it available. These costs include: paying for the domain registration and other services (\$19.95/year), hosting the web site (currently using a free web hosting service but would like to "upgrade" to a more versatile one - estimated \$10/month), internet connectivity (thanks to recent donations I've been able to upgrade to cable Internet at \$52/month but don't want to have to go back to dial-up), occasional software upgrades (in particular, Microsoft Visual Studio) and equipment costs.

You can help support continued development of CleanUp! by purchasing a CD, sending a donation, or offering to host the CleanUp! web site, helping me earn free hardware, or even donating hardware or software. For larger contributions (see below), I'd also be willing to add banner ads. to the CleanUp! site.

Making a Donation

You can make a donation using your Amazon account, or using PayPal (see below) to pay with any major credit card or debit card. Just click on the "Amazon Honor System" icon. There's one below, but there's also one available on the left hand side of every page on the CleanUp! web site.

Or, if you prefer, you can use PayPal. Just click on the "PayPal Donate" icon. Again, there's one below, but there's also one available on the left hand side of every page on the CleanUp! web site.

Support CleanUp!

Make a donation today, by clicking below

The amount you donate is entirely up to you. Think of this as a tip you pay for using the CleanUp! product. If you'd like some guidelines, I'd suggest any of the following:

- For any contribution, I give you credit on the CleanUp! web site (unless you request otherwise).
- With a contribution of at least \$100, you will receive a link to your web site.
- With a contribution of at least \$1000, you will receive a prominent banner ad and link to your web site (for one full year).

So why not contribute to CleanUp! today and do your bit to help keep CleanUp! free. It's easy, and takes only a few minutes.
